

## Kiteriders Montenegro Course Offers

## Prices 2019

### COURSES

#### Basic Beginner's Course

**Duration:** 2-3 days/approx. 8 hours (semiprivate) or 5 hours (private course)

**Course Details:** Theory + 2 lessons on the water

**Training Content:** Theory, training of kite-handling with soft and tube kites, kite setup, training of emergency situations and safety rules, re-launch, body drag, water start with kiteboard

#### Intensive Beginner's Course

**Duration:** 3-4 days/approx. 12 hours (semiprivate) or 7 hours (private course)

**Course Details:** Theory + 4 lessons on the water

**Training Content:** same as 2-Day-Course, **plus two additional lessons on the water**

In the two additional practising lessons on the water we can train the basics together with you more intensively and thus prepare you in an optimal way for practising on your own after the course. Depending on your individual progress, we will focus especially on your skills for water starts and riding.

#### Refresher

**Duration:** 1-2 days/approx. 4 hours (semiprivate) or 2 hours (private course)

**Course Details:** 2 lessons on the water

**Training Content:** This course aims at kite-surfers who want to profit from the tips and experience of our professional instructors after a shorter or longer break without kite-surfing or at those who just do not feel secure enough yet to practise on their own. The training content will be individually adapted to your personal skills. We will focus exactly on the specific kite-surfing techniques you want to practise further (e.g. water starts, kite-handling, riding, going upwind etc.)

#### Intensive Refresher Course

**Duration:** 2-3 days/approx. 8 hours (semiprivate) or 4 hours (private course)

**Course Details:** 4 lessons on the water

**Training Content:** same as refresher Course, **plus two additional lessons on the water**. In the two additional practising lessons on the water we can train the teaching content more intensively with you. We recommend the Intensive Refresher Course particularly when a longer time period has passed since the basic course or more than two goals of the teaching content of a basic or intermediate course (e.g. water starts, kite-handling, riding, going upwind etc.) should be intensified during the course.

#### Private Lessons

**Duration:** 1 day/approx. 1 hour

**Course Details:** 1 lesson on the water

**Training Content:** In our private courses you are trained personally by our experienced instructors. The training content will be adapted to your personal needs. Together with you we will work on your kite-surfing skills and help you to improve either your basic techniques such as water-starts, kite-handling and going upwind or, depending on your personal goals, we are also pleased to teach you in advanced techniques such as jumping and jibing.
